

CONRAD DIES OF WOUNDS

DR. GORDON GIVES HIS THANKS FOR EVERY DAY THINGS

Pastor Gives Thanksgiving views At Union Service Of Churches.

SUGGESTS COURSE IN THANKSGIVING

Spirit Of Day Rests Upon Idea Of God As Partner In Human Life.

Dr. P. H. Gordon, pastor of the Presbyterian church, finds much to thank God for in just the common every day things of life.

Dr. Gordon emphasized this thought when he preached the sermon at the annual union Thanksgiving service of the Salem churches Wednesday evening at the First Friends church. There was a large attendance.

"I believe we would be far better off if we took a course in thanksgiving," Dr. Gordon said.

The common everyday things for which to be thankful, that the speaker enumerated and discussed at some length, were books, with special reference to the Bible, and the value of having hymn books; the match and the advantage of having it; the watch which in these days the poorest man can carry; the electric car, which in the city provides transportation at such low cost; anesthesia, which has meant so much in the medical world, and the alphabet which has taken 3,000 years to develop.

The thing for which Dr. Gordon stated that he was the most thankful was that he had a father and mother who believed in God and accepted Jesus Christ as their savior.

"The spirit of Thanksgiving rests fundamentally upon the idea of God being a partner in human life."

Commemorates an Emotion

"Thanksgiving day is the only festival on the calendar of this nation which commemorates not an event but an emotion. It is the finest emotion of which the human heart is capable."

"Again the president calls upon the nation to offer unto God Thanksgiving and praise. This act of the chief magistrate," is a confession to the world that he, the people of the United States, believe in God and that he is the source of all good. But more than this, that we believe He is present among us, and will hear the expressions of our hearts as well as the utterances of our lips, as we give thanks unto Him.

"God has given us a country flowing with milk and honey, that we might be a blessing to others. With our blessings go our responsibilities. God is not going to treat us as a one-talent nation."

"Can you give thanks for suffering, hurts and bereavement? Every moody complaint adds to the burden we carry; every word of thanks lightens our daily load. There is no exhilarant like praise, and thankful people always carry a shining face."

Preceding the sermon Rev. C. E. Haworth read the president's proclamation and Rev. G. A. Beers gave the scripture lesson. Clarence Cosand of Damascus who had charge of the music, contributed a beautiful solo.

SALEM IS PLACED ON LINCOLN WAY

Highway Is Routed Through This City, Field Secretary Announces.

"We are preparing data to mark a new route for the Lincoln highway from Canton into Pittsburgh," declared D. S. Hoag, field secretary for the Lincoln Highway association, when in Lisbon Friday, enroute from the east to his headquarters in Detroit.

"All transcontinental traffic will be routed by way of Salem, East Palestine and Beaver Falls until there is an improved highway from East Liverpool to Pittsburgh," Mr. Hoag explained. "We expected to have an improved highway to the Ohio river from the Ohio-Pennsylvania state line to Beaver next year, but it now seems as if this will not come to pass. Until this road is improved, we're going to direct Lincoln highway traffic over the Cox highway."

Rush For Reserved Seats For Follies

The greatest sellout in local theatrical history, with one or two exceptions, greeted the Salem Elks' Follies of 1923 at Reich & Rugg's Friday morning.

In less than two hours after the seats went on sale there were no duets to be had for either night except in the corners and balcony. Gallery seats only will be left for general sale and for other seats already sold.

The show opens Monday night at the Grand. All in the east are Salem favorites.

SCHOOL PAGEANT DATES POSTPONED

Students, Under Direction Of Mr. Drennen, To Give Play Dec. 14-15.

It will now be held Dec. 14 and 15 and seats will be reserved Wednesday night, Dec. 12, at the High school.

L. P. Drennen, the director, is planning the various scenes in shape. Dress rehearsals will begin next week. The pupils have worked very hard on the pageant and will surpass previous High school dramatics.

The second scene is taken from medieval history. It is one of the well known adventures of Robin Hood. Grein A. Naragon impersonates the part of Robin Hood and is supported by a male chorus of merry men of whom Donald Thompson is Alan-a-Dale, John Kaley is Little John and Vernon Broomall is Will Scarlet.

TRAIN IS WRECKED IN LONG TUNNEL

Scores Hurl'd From Their Berths When Coaches Leave Rails.

Steubenville, Nov. 30.—Scores of passengers on Pennsylvania train 154, eastbound from St. Louis to Pittsburgh, were hurled from their berths at 6:45 o'clock this morning, seven cars leaving the track when the train was passing through Gould's tunnel, five miles west of here. Many were badly bruised and shaken up but none were seriously hurt.

The train was proceeding about 20 miles an hour through the tunnel, the longest of the Pennsylvania system, when the accident occurred. A broken rail is attributed as the cause of the wreck.

The engine and baggage coaches passed safely over the break but one day coach and six Pullman cars left the rails, turned partially over and scraped the walls of the tunnel. Considerable confusion resulted until members of the train crew informed passengers that there was no danger.

The accident occurred in the middle of the tunnel and passengers were assisted through the dark passage-way by the train crew and a special train was rushed to the tunnel's entrance and proceeded to Pittsburgh.

TWO AUTOS BURN, THREE WRECKED IN HOLIDAY MISHAPS

No Travelers Are Injured But Many Accidents Are Reported.

SOME AUTOS ARE LEFT IN DITCHES

Salem-Alliance Bus Sticks In Mud; Another Auto Is Ramm'd.

Three machines were wrecked, two burned, and several were marooned in ditches Wednesday night and Thursday. No holiday travelers were injured, however, according to reports.

At 6:30 p. m. Wednesday the car belonging to Chad Miller caught fire from a short circuit in the Keller Autotop shop on Penn st. and was damaged slightly. The blaze was extinguished by the fire department.

Two hours later the car driven by David Anderson, and containing Mrs. Anderson and a daughter caught fire on McKinley ave. near Washington st. In an instant the flames blazed up over the car and an explosion of gasoline seemed imminent. Dr. Stanton Heck and L. Bloomberg formed a bucket brigade and as the fire department arrived extinguished the flames.

Firemen stated that the car would not have lasted long, and that it was a miracle that the gas tank did not let go and blow the three persons from the car. A short circuit was given as the cause of this blaze.

The Andersons continued to Wells-ville after the blaze although the bootboard in the car had been burned away. Some repairs were made at a garage here.

Car Is Ramm'd

Dr. and Mrs. H. K. Yazgi and a party of friends had a narrow escape from serious injury when their machine was hit by another car in Sebring about 5 p. m. Thursday.

All had been attending the game at Mt. Union and as they turned a corner in Sebring another machine struck theirs, breaking the front axle. The car skidded into a ditch and the Chalfant Motor wrecking car from Salem was called to tow them into Salem.

A large coupe driven by E. P. Jones Youngstown, was struck in the rear by a speeding machine on the Damascus rd. Thursday night, the rear wheels and the differential being smashed.

The Salem-Alliance bus driven by Raymond Beck, turning out for another machine said to have been speeding was marooned in the mud near Damascus and had to be towed out.

The Canton-Youngstown bus at 4:30 p. m. Thursday had carburetor trouble and had to be abandoned on the Damascus rd.

Several cars on all roads leading into Salem were stuck in holiday mud but no serious accidents were reported.

Craig, comptroller of the city of New York, for contempt of court, the contempt being a criticism of the judge for his actions in a transit case in which the city of New York was affected.

KNIFE THRUST PROVES FATAL TO DRY AGENT

Salem Man, Knifed During Liquor Raid, Dies Thursday In Youngstown Hospital; Home On Broadway Bombed Recently.

Dr. Samuel E. Conrad, 33, state masquerade rd. His parents, Mr. and Mrs. Ellwood Conrad are now living in Pomona, Calif.

He grew up on the farm, and then came to Salem. On June 8, 1907, he was united in marriage with Miss Laura Calvin, and the couple made their home here permanently from then on.

Practiced Dentistry

Dr. Conrad, at the time of his marriage was studying dentistry. In 1908 he was graduated from the Philadelphia College of Dentistry and immediately came back to Salem and began practice of his profession.

In recent years he gave up his office in Salem, and opened one in East Palestine, which he held up to his death.

For many years Dr. Conrad was interested in law enforcement and before and during the war he aided in state dry law enforcement. After the passage of the prohibition amendment he was named a state dry enforcement officer and in the past two years had been very active in raids.

Youngstown has been for some time the scene of his dry work, and many threats are said to have been made to him that he would die if he did not cease chasing dry law violators.

A number of letters had been received by him, he stated, previous to the first attempt to take his life on Oct. 25, when his home was bombed; he, his wife and daughter and several roomers, escaping without injury.

"Killed Conrad" Was Cry

When he ran after the man with the bottle of whisky in Youngstown Conrad heard some one yell, "Kill Conrad," and he thought that someone recognized him despite the black disguise he had.

Dr. Conrad had a sensational career. A dentist by profession a photographer at times and a dry enforcement agent, the man was always up and doing.

Surviving the dead officer are his wife, and daughter; one uncle, Levi, living north of the city; three sisters, Mrs. Jane D. Dickey, Pomona, Calif.; Mrs. George Richardson Santa Paul, Calif.; Miss Mary Conrad, Salem; two brothers, Dr. J. L. Conrad, McKeesport, Pa., and Emerson Conrad, who twice gave blood to his brother. Several nephews also survive.

It was announced Friday afternoon the funeral will be at 12:30 p. m. Sunday at the home. It will be public. Rev. H. L. Miller will have charge of the services. Interment in Grandview.

Need Younger Statesmen Dr. Thomas Declares.

In a recent address Dr. M. Carey Thomas, president emerita of Bryn Mawr college, expressed the opinion that the nation's greatest need is a corps of statesmen under 40 years of age. Men of this age, she asserted, are better equipped to help settle the world's greatest problems.

MASSACHUSETTS SETS RECORD

CITIES and communities distraught

by the ravaging tragedies due to

automobile accidents should take a

leaf out of the book of Massachusetts

experience. The entire nation is

aroused over this situation, but ap-

pears to be unable to formulate de-

fensive means for the protection of

the public. The tendency is to seek a

remedy in numerous new laws, but

results continue to be disappointing.

It is not in new laws that the ade-

quate remedy lies, as Massachusetts

has demonstrated, but in the rigid ap-

plication and enforcement of laws we

already have.

Automobile accidents in Massachu-

setts steadily are decreasing, with

more cars in service each year. In

1922 there was but one fatal accident

to 5,622 automobiles, and during the

last month but one to 8,203.

Such a showing as this, truly re-

markable, should engage the atten-

tion of every city and state in the

country. It should prove to citizens

and officials that these tragedies can

be held down almost to the vanishing

point.

And how did Massachusetts achieve

this phenomenal record? Simply by

enforcing the laws and playing no

favorites. In the single month of Oc-

tober this year 2,000 motorists' li-

censes were revoked for cause.

Fines and imprisonment in this con-

nection are proper and should be im-

posed with unrelenting rigor, but

finer and imprisonment, no matter

how drastic, will not wholly curb the

reckless temperament, the gambler

with fate, or the criminal who mocks

at ordinary laws of restraint. But to

make every motorist in the state real-

ize that his right to enjoy a public

privilege—the use of the streets and

roads—depends upon his observance

of the laws and rules laid down for

his guidance, with the penalty of re-

vocation of his license as the alterna-

tive, is to get at the root of the mat-

ter.

Such a policy, rigidly enforced, soon

would rid a state or community—as

it has done in Massachusetts—of in-

competent drivers, make the drunken

drivers' shrift a short one, and im-

press upon all users of automobiles

the imminent possibility of the loss of

their privilege to drive at all.

Drivers who would be willing to

risk a stiff fine, even imprisonment,

would hesitate before risking the sus-

pension—perhaps permanent—of their

privilege to enjoy this modern means

of transit.

20 YEARS AGO

(Issue of Nov. 30, 1903.)

Canton—From the probate judge's

office of Stark county an insane per-

son was sent to the Massillon State

hospital each day last week, and

there are some other inquiries to be

held within the next few days. The

wonderful increase in insanity in

Ohio is causing much comment

among those who are experts upon it.

Mrs. Lydia Holloway, wife of Wil-

liam Holloway, died Thursday from

the effects of a stroke of paralysis.

Mrs. Mary Elizabeth Knowles, wife

of James Knowles, died suddenly

about 1 o'clock Monday morning at

her home northwest of the city. She

was well known in Salem and vicin-

ity.

Norman E. Hill, 15, son of Edwin

Hill, East Green st., was shot at the

Driving park Saturday morning,

while in company with three other

boys and died of internal hemorrhage

about 4:30 that afternoon.

Sunday's edition of the Pittsburg

Gazette contained a very good pic-

ture of Elmer Kesselmir, quarter-

back of the strong Salem team. Kes-

selmir distinguished himself during

the season just ended, proving him-

self to be one of the surest tacklers

on the strong local team.

Charles Edney, West Dry st., is con-

finned to his home, suffering from a

severe attack of pneumonia.

Thus far this country has exported

2,000,000 barrels of apples this

fall and there is plenty left for home

consumption.

A shrewd street car man bought 25

turkeys in Massillon last Wednesday

morning for 17 cents a pound and

sold them in Alliance at 22 cents a

pound.

Mr. and Mrs. E. Morell left for Col-

umbus this morning to attend the

funeral of Jesse Lemmon. Mrs. Morell

is a sister of the dead man's wife.

NEAT PIECE OF MECHANISM

Clock in San Diego, Calif., So
Adjusted as to Tell the Time
in Many Lands.

There is a wonderful clock in San
Diego, Calif., which tells the time in
all nations at the same moment. That
is to say, it gives the time in nearly a
score of the principal cities of the
world. It has twenty dials, four of
them four feet in diameter and the
rest smaller ones on the faces of the
larger ones. It also gives the hour,
minute and second of San Diego time
and the day of the week and day of
the month. It is twenty-one feet high,
and is considered by many to be the
largest and best-built street clock any-
where in the United States.

The master clock is inclosed in
plate glass at the bottom of the ped-
estal, and the intricate parts and com-
plicated action are plainly visible. It
was made in one shop, and cost \$3,000.
Fifteen months were required to con-
struct and finish it. The Jeweling is of
very fine tourmaline, agate, jade and
topaz. The motive power is a 200-
pound weight, and the clock winds it-
self automatically. It is illuminated
at night.

When sponges of Florida first be-
came popular they were sold for ten
cents a pound, now some grades com-
mand over \$6 a pound.

French Villages Were Wiped Out.
It is sometimes forgotten that parts
of France are really destroyed. One
was reminded of this fact by a notice
in the Journal Officiel the other day
which sets out that the village of
Alles, Beaulieu-Eclivry, Mousy-sur-
Aisne, Courtacon and Grandela-et-
Malval in the canton of Craonne are
merged in other communes. This
means that they no longer exist. They
are completely wiped out. It is not
another Carthage, which is obliterated,
but nevertheless one should remember
that many French communes have been
as utterly lost as Carthage.

FIRST OF LIVING ORGANISMS

Expert Opinion Is That Earliest Forms In Lakes Must Have Been of Vegetable Origin.

Interesting studies have been made by Monty on the earliest forms of life appearing in the Alpine lakes. One of these, the lake of the Seracs, has been created within human memory, and it seems to justify the statement that the first living forms inhabiting lakes are of a vegetable nature. Only five living species are found in the lake of the Seracs, all of them plants and four of the order of diatoms. In the older lakes of Ong and of Tignaga animal forms begin to appear, feeding upon the diatoms. The first two steps in the populating of a lake, according to Monty's conclusions, are, first, the appearance of diatoms absorbing carbonic acid dissolved in the water, and, second, the appearance of simple animal organisms, such as rhizopods, whose nourishment depends upon the pre-existing vegetable forms. Geologists have supposed that the first living forms in the oceans were vegetable.

HIGHEST OF ALL CHIMNEYS

It Belongs to a Smelting Company at Great Falls, Mont., and Rises 500 Feet.

The highest chimney in the world is at the smelting works of the Boston and Montana Consolidated Copper and Silver Mining company at Great Falls, Mont.

It rises 500 feet above the surrounding district, and has an internal diameter at the top of 50 feet. It can remove 4,000,000 feet of gases per minute, at an average temperature of 500 degrees Fahrenheit, says London Tit-Bits.

On account of the rigid requirements imposed for its construction, including extraordinary stability against wind pressures, ability to withstand the action of acid formed from the waste gases, and strength to carry 60 feet of additional height with only a little increase of the maximum bearing pressure, both its design and construction involved features of great interest.

Disposing of the noxious gases high enough above the surrounding country to render them harmless to vegetable and animal life was, of course, a great consideration in the selection of the site.

The chimney has an outside ladder from the base to the top, fitted with bodyguards at every second rung. The rungs and guards are formed of 3/4-inch painted round iron rods; the rungs are 12 inches in length, and the guard loops 30 inches. For a distance of 100 feet below the top they are coated with lead.

About 13,000 tons of radial blocks, 4,000 barrels of cement, 5,225 barrels of lime, 4,180 cubic yards of sand, and 200 tons of acid-proof mortar were used in the building of this enormous structure.

CULTURE SPREAD BY WARS

French Soldiers Brought Artistic Treasures and Ideas From Their Campaigns in Italy.

"At the recent silk show in New York, which was seen by 200,000 people, the silk manufacturers of America laid their products before the American public," said Horace B. Cheney, the noted designer, "just as many years ago artists brought their finest work to kings."

"At the order of Francis I, greatest of the Valois, Benvenuto Cellini was summoned to the court of Paris, there to produce the miracles of his art which were astonishing Italy. Writes Cellini, 'We found the king's court at Fontainebleau. I went to his majesty with a basin and jug which I had made, and when I had come into his presence I kissed his knee, and he gave me the most gracious reception.'"

"The name of Francis I is associated with the culminating moment of the Renaissance. The wars of Charles VIII and Louis XII, though they dealt a death blow to Italy, brought new artistic life to France. French warriors returned from Italy with the wonders of southern Europe on their lips and her treasures in their hands. So that at the time of Cellini's arrival in France in September, 1540, French palaces had become fitting shrines for the works of such a master, as well as for the sumptuous furnishings that formed part of the loot obtained in the Italian wars."

"The American soldiers of the Twentieth century, in turn, have lived for a brief time in the atmosphere of French art. Is it not natural that they, too, should acquire a discrimination which will influence all with whom they come in contact and thus spread an appreciation of that 'touch of French genius' which marks so many of our exquisite silken fabrics?"

Gay Little Accessories

Ribbons are the most adaptable of all materials for making Christmas gifts. A little container for a powder puff, and a pair of bedroom slippers appear in the illustration, both made of gay ribbons. The container is merely an envelope of satin ribbon, decorated with sealing wax flowers, and it fastens with a snap fastener. So in covered mules are gay with narrow ribbon frills and flowers. They are held about the ankles with ribbon-covered elastic.

DEMOCRATS GROW JUBILANT AGAIN

THINK THE HUGHES COMMISSION PLAN WILL RENEW STRIFE AMONG REPUBLICANS.

LATTER SEEM NOT DISTURBED

By EDWARD B. CLARK
Washington.—Something of spice, mostly pepper just now, is being sprinkled into the mixture of things which make up the political provender. Leaders of the Democratic party who happen to be in Washington are showing evidences of jubilation over certain happenings in the ranks of national Republicanism. The Republican leaders seem undisturbed, but truth compels them to admit that there are some evidences of a rift which, they add, soon will disappear.

Not long ago the Democrats seemed to be somewhat downcast over the apparent rehabilitation of the enemy forces, the signs of unity and pacific conditions generally. Now Democracy sees or says that it sees a renewal of strife internal to Republicanism.

All of this has come out of such things as the recent pronouncement of Senator McCormick of Illinois on the European finance commission plan of the administration; the announcement of his friends that Hiram W. Johnson is about to enter into the campaign against Calvin Coolidge; and the tales told by one or two former officials under the Harding administration, concerning the probabilities in the Johnson case.

When the administration received from abroad word of the probable agreement to accept the Hughes plan for the appointment of a financial commission to pass judgment on how much reparations money Germany can pay, the Republican politicians who were opposed to the Harding plan for membership in the World court thought that the financial commission plan might offset the court matter and that the latter would not be pushed in the senate. Therefore they concluded that so-called irreconcilability in the party would be satisfied and that there would be no opposition to the finance commission plan within the party.

Democrats Cheerful Again.
The thoughts of the leaders seemingly did not run entirely right. Some of the Republicans of place who have objected from the first to having anything to do with European affairs have come out in criticism of the finance plan. This has been interpreted by the Democrats here as proving that the Republicans cannot remain harmonious on world matters for any great length of time, and they say that they see a reopening of the strife which by general admission was in progress some time ago within the party ranks.

From the Republican point of view the Democrats are showing an unjustifiable jubilation. Leading Republicans hold that the so-called irreconcilables in the party are not in great numbers opposed to the finance commission plan as outlined by Mr. Hughes and as accepted with reservations by the allied governments. They point to Senator Borah, for instance, who once upon a time was considered more set against intermingling in foreign affairs than any of his brethren. Senator Borah has said that he approves of the finance commission plan, but adds that he does not think it goes quite far enough. He thinks it should have more authority and more power.

Most of the Leaders Approve.
So it seems that there is one so-called irreconcilable senator saying that the path is not being traveled far enough or fast enough, while a few others are saying the path ought not to have been entered upon at all. If one may judge by appearances, it would seem, even in the face of such pronounced opposition to the plan as voiced by some of the Republicans, that the majority of the present dominant party leaders is favorable to the adoption of the Hughes plan and to using every effort to make it successful.

The administration and the State department seem to be standing steady in the face of such criticism as has been made of their plan for a finance commission. There will be nothing officially American about the commission. This means that the government cannot attempt to force reluctant nations to accept the findings. It is an advisory matter only, and as such it is entirely out of the field of strict officialdom. Nevertheless, the State department keeps hearing from here, there and elsewhere in the country that the "official" action of the United States is to be commended or condemned, according to the viewpoint of the American who writes his opinion.

It is evident that the State department chieftains are somewhat restive under the seeming misapprehension, of a good many American citizens about the real nature of the proposed commission. Time and again explanations have been made of the real scope of the plan, explanations which have included definite statements that the commission is to be advisory only, and that in no way is the United States about to enter into the field of possible European entanglements. The explanations seemingly have done no good, for even men holding high official positions in congress and out seem to be still suspicious that the commission plan is the entering wedge to be used to make an opening for America's entry into the maelstrom of European troubles.

REFUSE PERMITS FOR GUN TOTING

County Clerk Burns Says Only Regular Officers Will Get Permits.

Lisbon, Nov. 29.—Although it has been said that some court clerks throughout the state have been accustomed to issuing gun totting permits without applicants having a particular need for carrying concealed weapons, no such permits have been issued by Clerk of Courts John T. Burns at Lisbon, so the records reveal.

In some counties when applications have been made for gun totting permits, no reasons have been divulged, and yet \$1,000 bonds have been filed in each instance.

When the report was presented to Mr. Burns, he declared that so far as Columbiana county is concerned, not

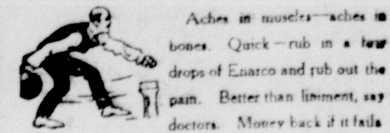

The Original Food Drink for All Ages. Quick Lunch at Home Office or Fountain. Rich Milk, Malted Grain Extract in Powder. Tablets, Nourishing—No cooking. Avoid Imitations and Substitutes.

one such permit has been issued and that person is a regular officer, either a constable or a police officer.

"Any other persons carrying guns can be arrested for carrying concealed weapons," Mr. Burns said. "The law is very clear on this issue." The mere filing of a bond does not give a person the right to carry a gun. It has been pointed out, unless that person is a regular officer, either attached to the sheriff's office, constable or police officer.

Making Money Go a Long Way!

The story is related of George Washington that he threw a silver dollar across the Potomac River at a point where it was said to have been approximately a mile wide. Surely, a dollar went further then, than now.

The purchasing power of a dollar has shrunk since Washington's day. But the discriminating public is finding that a dollar still goes a long way here.

We know of no Store where a dollar will go further.

TWO WIVES GIVEN DIVORCE DECREES

Two divorces were granted in common pleas court by Judge James G. Moore Wednesday afternoon. Decrees being granted to Margaret L. Little from her husband, Earl W. Little. She was restored to her maiden name, Margaret Little.

Sam E. Webber of East Liverpool, who sued for separation from her husband, Warren W. Webber, was given a decree on grounds of gross neglect.

The couple separated previously, and then Webber asked his wife to live with him again. She did. Later she filed a petition for divorce. They were married in Lisbon in 1914.

MAY PAVE ROADS IN HANOVER AND WEST TOWNSHIPS

Next Year's Program Will Include Highways In Both Townships.

By M. K. ZIMMERMAN
 The trustees of both townships are favoring the improvement of the Lincoln Highway to Dungan-
 ton. The trustees of both townships are favoring the improvement of the Lincoln Highway to Dungan-
 ton. The trustees of both townships are favoring the improvement of the Lincoln Highway to Dungan-
 ton.

Trustees of Hanover township are now arranging final details for the surfacing of the Shirk road from the Lincoln Highway to Dungan-
 ton. The trustees of both townships are favoring the improvement of the Lincoln Highway to Dungan-
 ton. The trustees of both townships are favoring the improvement of the Lincoln Highway to Dungan-
 ton.

The Shirk rd is to be macadam surfaced and the stone for the base will be taken from that pile of stone which was from the old Beaver & Sandy canal tunnel nearby. For several years there has been considerable agitation over the improvement of this particular highway, some residents of Hanover township desiring the Lind-smith section of the "Y" from the Lincoln Highway to Dungan-
 ton improved.

In West township a new board of trustees has been elected who will take office Jan. 1, and it is proposed by this board, so it is reported in Lisbon, to seek the early surfacing of the East Rochester-North Georgetown rd, grading on which has been completed for quite a distance for at least two years.

It is recalled that the fight for the improvement of this highway has waxed warm for a long time and it was considered a main issue during the last campaign in West township. The county commissioners are favorable to the improvement of all these highways and now that the various boards of township trustees are willing to go ahead with their share of the cost, nothing seems to stand in the way of several improvements during the coming year.

It has been pointed out, however, that the county cannot go too strong in advancing legislation for highway improvements during 1924 until it is ascertained just how much state and federal aid can be obtained. However, the several highways in West, Hanover and Butler townships have been under discussion for many months, and considerable legislation has already been spread upon the commissioner's journal with this end in view.

COUNTY WOOSTER CLUB WILL MEET

Celebration In Lisbon Is Being Arranged By Salem Man.

Charles M. Rohrabach, principal of Salem High school, is making plans for the Wooster day celebration which will be held Dec. 11 by the Wooster Club of Columbiana county. The club will meet at Lisbon. Arthur Murray of the College of Wooster faculty will make a speech. Miss Martha Billingsley of Lisbon is secretary and Mr. Rohrabach is the county president.

The celebration commemorates three events in the history of the College of Wooster. On Dec. 11, 1900, the college library building, which now has 50,000 volumes, was dedicated. On the same date in 1901 fire destroyed the old main building. Starting an immediate campaign for funds, under the leadership of Dr. Louis Holden, money was raised to construct four new buildings and a power plant. This mammoth task was completed within a year and on Dec. 11, 1902, Taylor, Scovel, Severance and Kauke halls and the new power plant were dedicated.

Tells Women How She Was Restored to Perfect Health by Lydia E. Pinkham's Vegetable Compound

Memphis, Tenn. — "Two years ago I was completely run-down and my nerves were a wreck. I could not sweep a room without resting. I could not do my work except a little at a time, and the doctor's medicine did not help me. One day some one threw your little book on to my porch, and in it I read several testimonials of women who had been like myself. I went right out and got me a bottle of Lydia E. Pinkham's Vegetable Compound, and before I had taken the whole of that bottle I knew it was helping me. I took six bottles, and then in about three months I took two more. Now I am in perfect health. I do all of my own work and could do more. I can truly say that I know Lydia E. Pinkham's Vegetable Compound gave me my health." — Mrs. O. J. HINCKLEY, 316 Union Ave., Memphis, Tenn.

LICENSES 5,500 DOGS IN COUNTY

Money Collected Goes To Sheep Fund And Board Of Education.

Lisbon, Nov. 30.—"It has been a great year for the collection of dog licenses," declared Deputy Auditor Randall Hamilton, who he referred to the record of collecting close to 5,500 licenses so far this year.

"But the people ought to understand now," he continued, "that the dog licenses for 1924 should be paid on or before Jan. 1 next."

Money from the collection of these licenses goes in part to the county board of education fund, also a part to the "sheep" fund.

A few days ago over \$2,000 was transferred from the dog license

fund to the credit of the county board of education fund.
 Deputy Sheriff B. F. Rollins has been active throughout the season in forcing the payment of the dog tax and very few arrests have been resorted to. It has been the custom of Mr. Rollins to "locate" unlicensed dogs, then inform the owners that the tax should be paid at once. His injunction is generally obeyed quickly, hence the new record collection for the year.

FLUSH THE KIDNEYS BEFORE BREAKFAST

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Having too much rich food creates acids, which excite the kidneys. They become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood. Then we get sick. Rheumatism, headache, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys, or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular or passage or attended by a sensation of stinging, begin drinking a quart of water each day, also eat about four ounces of Jad Salts from any pharmacy, take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will get fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush and stimulate the kidneys; also to help neutralize the acids in the system, thus preventing bladder weakness.

Jad Salts is inexpensive; makes a delightful effervescent lithia-water drink which everyone should take now and then to help keep the kidneys clean and active and the blood pure, thereby often averting serious kidney complications. By all means have your physician examine your kidneys at least twice a year.

IT-RY, ITCHING SKIN IS QUICKLY SOOTHED WITH THIS SULPHUR

Mentho-Sulphur, a pleasant cream, will soothe and heal skin that is irritated or broken out with eczema; that is covered with ugly rash or dry, itching, scaly skin. Eczema, skin eruptions so quickly, says a noted skin specialist.

The moment this sulphur preparation is applied the itching stops and after two or three applications, the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning itching or disfigurement. Mentho-Sulphur always heals eczema right up.

CALL HUGHES PLAN PARTY TRIUMPH

REPUBLICAN POLITICIANS THINK IT MAY OBIVATE TROUBLE OVER WORLD COURT.

DEMOCRATS SEE AN OPENING

By EDWARD B. CLARK
Washington.—Acceptance, even with some reservations, of the Hughes financial plan by France is looked upon by most Republican party leaders here as being a triumph for the administration. They seem to think that President Coolidge will benefit largely politically by the triumph of a plan first given by which some men say should go to the secretary of state.

The politicians here are coupling up the administration's financial commission achievement with the proposition for American membership in the World court. Perhaps it is wrong to say that they are coupling the two, for in fact they are offsetting one against the other. Here is the way that the thoughts of some of them run: "With such an achievement the administration ought to be satisfied to let the matter of American membership in the international court alone."

While it is known well enough that some of the so-called irreconcilables do not like the financial commission idea because it is an American proposition and has to do with world affairs, they will not have opportunity to prevent it from being put into operation. The executive in this matter is acting within the limits of its prescribed authority. In the matter of American membership in the World court, however, the men on the hill will have much to say.

Confidence and Anxiety.
Some of the students of the situation here think that the financial commission is to be a cure-all; that out of the conference in Berlin, where presumably it is to be held, findings will come which will be acceptable to all parties; that Europe will instantly set its feet on the path leading to financial stability and that any further plan for American co-operation in world affairs will not be necessary.

It is with an almost painful anxiety, however, some of the Republican leaders look upon the World court matter. They are as much afraid of it as otherwise courageous soldiers in the field were afraid of a mine under their feet. If, however, the financial commission plan bears the hoped for fruit, some Republicans seem to think that their troubles over other international matters can be whistled down the wind.

How about it? If the administration does not press the Harding proposal for membership in the World court, naturally it will be accused of failure to redeem its promise to carry out the Harding policies. The Democrats are waiting opportunity to make the charge of cowardice against the Coolidge administration. The party in opposition will be in a position to make the charge because its basis would be treason to a former Republican administration's plan.

If there is one thing more than another that the Republican leaders desire it is to keep the present administration away from the pitfalls of trouble with the "irreconcilables" inside the party. The majority of the Republican leaders in Washington seem to be in favor today of the renomination of Calvin Coolidge. They do not want him to appear as a promise breaker and they do not want him to do anything which will stir Republican opposition into action on international matters in the next congress. In fact, they want party peace on everything pertaining to Europe.

Not Giving Hughes Due Credit.
Comparatively few of the leaders of Republicanism, as represented in Washington at any rate, have shown any great love for the activities of Charles E. Hughes, secretary of state. They have been afraid of him as one whom they have thought to be desirous of mingling in European affairs with which, according to their view, this country should have nothing to do.

Now, however, some of the former critics of Mr. Hughes are willing to praise his financial plan as a great achievement, but they are giving the praise not personally to Mr. Hughes but to the Republican administration. Of course the secretary of state is a part of the administration, but while the country doubtless will give him the credit for bringing Europe to his viewpoint, the Republican leaders desire, naturally enough perhaps, that the triumph shall be regarded by the voters as that of Republican endeavor rather than as the personal endeavor of one man.

What seems to be the soundest thought on the subject in Washington is that the matter of American membership in the World court will not and cannot be side-tracked next winter by the senate. Something will be done with it, but just what nobody knows. Senator Lodge, who is the chairman of the committee on foreign affairs, probably can be depended upon to devise some scheme to save, so to speak, the face of the situation. The belief is, although of course nothing definite can be predicted, that the President will call attention to the World court matter and say that it was presented by his predecessor and is in the possession of the senate for such action as it sees fit to take. It seems to be the feeling here that this is about as far as the administration will go in the matter.

Movie Beauties

Use these Powders—you will revel in them

BY EDNA WALLACE HOPPER

I have for years paid \$5 per box for my powders—to get the finest in existence. So do most movie beauties. They must have the best.

I started to offer other women my aids to beauty and to youth. But I never thought of powders. I did not dream that such powders as I use could be supplied at modest prices.

But the makers have helped me out. They now supply me these powders under my name at a price which all can pay. I told them that women would use millions of boxes. So those who use my beauty helps may get my powders, too.

None so exquisite
These powders are supreme productions, made for those who demand the best without regard to price. They are as fine as vapor, as harmless as dew, and fragrant with my favorite perfume. Most of you have never seen such exquisite powders.

There are two kinds, light and heavy. I use a heavy cold cream powder, with a base like my Youth Cream. It clings and stays. But some like a powder light and fluffy, without the cold cream base. So I

had both kinds prepared. Edna Wallace Hopper's Youth Cream Powder—the heavy, clinging powder—sells for \$1. Edna Wallace Hopper's Face Powder—the light and fluffy powder—sells for 50 cents. Both come in three shades—white, flesh and brunette.

Supplied by all druggists and toilet counters. They also supply my Youth Cream, based on fruits. My Facial Youth—my famous liquid cleanser. My Hair Youth, which brought my luxuriant hair. And my White Youth Clay—the utmost in a facial clay. Those are the creations which made me a beauty, and which keep me a beauty at my grand old age. My Beauty Book comes with each.

If you want a matchless powder, go ask for a box of mine. If you want more beauty or perennial youth, the very ways which brought them to me are at your command. Edna Wallace Hopper. Business address, Waukesha, Wis.

Note—Miss Hopper is now playing the Pantages Vaudeville circuit of the Western states.

Let Us Be Thankful

THANKFUL? Yes! Let us be thankful that we're not living in the days when the only toilet was in the backyard; when the only bathtub was the washtub; when the only lavatory was a tin basin; when the only hot water heater was a teakettle.

Isn't that plenty to be thankful for? If it isn't, then be thankful for the radiator heat that heats the whole house, instead of the fireplace or the stove that heated only a spot or two.

Yet those bathless, heatless days have been called "the good old days." More old than good, don't you think?

Why, through modern plumbing and heating, the poorest man today can live better and healthier and longer than could a king a hundred years ago.

These are the days—the good new days. So, then, let us be thankful.

SALEM DOWNS LISBON, TAKING SECOND PLACE IN SCHOLASTIC RACE

Salem High ran into second place in the county race of 1923 Thursday morning at Reilly field when the Red and Black defeated Lisbon High 13 to 6.

Lisbon furnished a big surprise, usually holding the Salem team to such a low score. By the offensive strength they displayed, the Salem boys should have run away with the game.

Although the first quarter was scoreless, Salem High had things fairly easy and once brought the ball to the one yard line, only to be held and lose the ball on downs.

The second period was the one in which Salem did all their scoring. From the 40 yard line Bova tossed a pass to Judge back of the goal line for the first marker. Yengling kicked goal.

A short time later in the same territory Sartick took a pass from Houser, ran toward the goal line finding all tacklers but one and placed the ball on the one yard line. Houser then bucked it over. Yengling failed at goal.

The second half was scoreless but had several thrills. In it, Houser made a sensational 50 yard run from five yards back of his own goal line on a fake kick formation. It was the outstanding play of the game.

In the second half, Lisbon made three first downs, and with the single one in the first half, brought their total up to four.

Many fumbles marked the open game. Usually it was Lisbon, and usually a Salem man recovered. Possibly the condition of the field had something to do with it, but the Lisbon safety man generally seemed to lack confidence due to Sartick always being on hand.

Thicket and Black tried the over-head attack most of the time with a few end runs. Lisbon attempted a few passes and made three good but mostly made their gains by means of the Minnesota shift.

When the fumbles are passed on two subs must be remembered for their fine work. Fisher, playing for Lisbon in his first big game, did a fine job and was a beacon of the offense. Duncan is the other recipient of praise. He was the best half on

the old Thursday. Houser and Sartick, regulars, made things miserable for Lisbon.

It was the coldest day of the season but a big holiday crowd viewed Salem High's green but splendid team take second place in the county standing, something to be elated over SALEM—13. LISBON—6.

BINGVILLE BEATS SCHAFFERS 6-0 IN HOLIDAY BATTLE

Turkey Day Game Played In Sea Of Mud, Giving Visitors The Edge.

Brawn proved greater than speed Thanksgiving day afternoon at Reilly field, enabling the Washingtonville Pros to defeat the Schafer independents, 6 to 0.

On a field thick with mud the heavy visiting team pushed one score across the line, which proved to be just enough to win a hard fought battle.

The Schafers, a light end-running and passing eleven, stood up nobly before the onslaught of the coal miners but despite their hard work could not keep Washingtonville from scoring.

Throughout the game the independents attempted pass after pass. Hagan sending the ball many times to waiting arms for long gains. Once was when Bolen was over the line but the slippery ball bounded out of Pat's muddsoaked arms and the Schafers lost a fine chance to score.

Fines made the visitor's marker in the third stanza when he went off tackle for two yards and over the

line. Washingtonville's place to that had pushed the ball down the field and d by a Salem fumble.

The condition of the field, and the fact that the entire game was played in the rain, made handling of punts and passes very difficult.

Jup Pluvius was not the one who did the sensational, however. Fines and Hodge tore off big gains for Washingtonville and Spencer and Bolen joined the swimming team and flowed under water time after time.

It isn't often that a lightweight team will take on a heavy pro team and play like the Schafers. This very same Washingtonville team was defeated by the Schafers two weeks ago. Thursday's struggle evening the standing.

Rickenbacker

A CAR WORTHY OF ITS NAME

And Now--- Rolls-Royce!

A cablegram just received says:

"In the London Automobile Show, 80 British makes, 70 foreign makes exhibited, of which 20 American. Fifteen of leading British makes offer four-wheel brakes, including Rolls-Royce large car, Lanchester, Daimler, Vauxhall, Crossley, Sunbeam."

Isn't that the irony of fate?

Rolls-Royce—the name that has been the leaning post—the car that has been Exhibit "A" in the propaganda to stem the tide of 4 Wheel Brakes!

Rolls-Royce now brings its product up to date.

At the recent Paris Automobile Show some example of Rickenbacker advanced engineering was endorsed in every booth.

Many improvements pioneered by Rickenbacker—first seen in this product—were shown in the highest priced cars.

4-Wheel Brake—100 per cent.

100 per cent of them were internal expanding type, too—and 99 per cent mechanically operated.

Double fly wheels; Air Cleaners; "Double Depth" Frame; Ball Bearing steering; Disc Steel Wheels;—and 4-Wheel Brakes. All of these features were pioneered by Rickenbacker.

Surely the Rickenbacker is the car you want. Drive the car that is the last word in engineering refinements—drive the car that mechanically measures up to the finest European products—drive the car that you can be justly proud of.

Turn To The Right

To the millions of theatergoers who enjoyed that greatest comedy-drama hit of the speaking stage in John Golden's presentation of "Turn to the Right," by Winchell Smith and John E. Hazzard, and to the other millions who longed to see it, the news that this universally popular play has been transferred to the screen will prove a joyful notice.

This highlight of the stage characterized as "the play of mirth and morals," in its celluloid version is presented by John Golden and Marcus Loew and is being shown at the High school auditorium. It is a Rex Ingram production distributed by Metro pictures and the youthful director who won international fame for his wonderful screen portrayals of "The Four Horsemen of the Apocalypse" and "The Conquering Power" has added further laurels by this latest cinema offering.

In the leading feminine role is Alice Terry who won her way to fame in "The Four Horsemen" and "The Conquering Power" while playing opposite her is Jack Mullan who has made a reputation on both stage and screen.

IS OVEREATING A CRIME?

Writer Says It Is, and That Those Who Gorge Should Be Arrested.

Sometimes when I think of the dining out done by members of successive cabinets in Washington I believe it would pay the taxpayers to provide a payment to cabinet officers of, say, a hundred dollars for every dinner engagement they refused.

The district known as Wall street is becoming more canny than most places about overeating; but go up to the Bankers' club between one and three and see the quantity of meats and sweets tricked away by those who mistook American parents transmitted to them in easy youth the idea that the quantity an individual ate was just the measure of his well-being.

Contrast this regime of stuffing with the diet of the Romans before Rome had come to its down grade imperial glories, and when a hardy, virile race lived on meals of little cakes and a drink of mild juice and considered it vulgar and utter folly to go gorging through every day.

We arrest men for being drunk; it would be a better thing to arrest them for measuring more at the equator than around the chest. One is an occasional misdemeanor; the other is a continuing crime. We chase the bootlegger who has operated a still in the woods; but we say nothing to the bishop who munches sweets and so operates his own still—the blind finger beneath the waistband—which also makes men sleepy, irritable, cross and intoxicated, and threatens to make them crack.—Saturday Evening Post.

UNSAFE TO TEASE SWANS

Blow From the Male's Wing Has Power to Break the Ordinary Man's Leg.

Swans can fly at the rate of 100 miles an hour. No one knows how long they can keep on the wing, but the trip from Scandinavia to Britain seems to be merely a pleasant flutter. They pass from one side of Canada to the other in huge flocks at certain times of the year and at very high altitudes.

It is not safe to tease or seek familiarity with swans in summer time when cygnets, as young swans are called, are about, says London Tit-Bits. The male swan is very pugnacious then, as a bather in the Thames found to his cost quite recently.

There is a traditional impression that a blow from a swan's wing will break an average man's leg, and there is on record a case of the death of a fox from such a blow.

The force of the swan's wing blow is emphasized in a story from Buckinghamshire, which records the attack of a male swan on a boat being rowed near the nest. The pinion struck the gunwale of the craft, and as a result was laid bare to the bone, being stripped of both feathers and skin.
